Purpose: Students create their own avatar and can talk or type text for the character to say. This program can be used in free mode and students can share their thoughts/ideas through a creative avatar (great for projecting for the entire class to view). Note: Voki requires Flash Player.

To use:
1. Go to www.voki.com
2. Customize your character and select your background.
3. Click "Publish" and save when prompted.
4. Click the play button at the bottom of your Voki image to view.
5. You can also share your Voki via email, Facebook, Google+, Twitter, or a URL.

Voki FAQ (found on www.voki.com):

What is Voki?
Voki enables teachers and students to use speaking animated characters to enhance the learning experience.

Why use Voki?
Capture students' attention and add fun to the classroom. Voki is being used by thousands of teachers to enhance classroom instruction, engagement and lesson comprehension.

Who is Voki for?
Voki is for teachers and for students. Teachers can use Voki to create animated presentations for their classroom, and they can also create fun Voki assignments for their students, for classwork, homework or special projects.

Can my students use Voki?
Of course - but you need to add them to your account, and so provide them with access. When your students login to Voki, they will have access to the Voki assignments you created for them.

What grade level is Voki for?
Voki can be utilized effectively at any grade level. Though most teachers who use Voki teach in Elementary Schools (K-5), we see many teachers using Voki effectively and innovatively at higher grade levels, including at university level!
